SPECIALIST WEIGHING SYSTEMS FOR THE FOOD INDUSTRY

The company

Weightron Bilanciai is a specialist provider of weighing solutions for the food and processing industry. We are part of the world renowned Bilanciai Group, providing leading edge weighing solutions across 30 countries.

Our solutions

Our research and development teams have developed a range of hardware and software solutions to suit the food industry in the UK. These solutions will reduce human error and increase efficiency in weighing processes.

Our solutions have been specifically designed to be simple to use to help you maximise output per head.

- User Friendly
- Touch Screen
- Colour Graphics Wash
- down IP69K
- Full Traceability
- Simple Data Transfer

The Hardware

- OIML trade approved
- Built to IP69K for wash down environments
- Robust stainless steel design
- USB, Ethernet and WiFi interfaces for convenient data transfer

Every weighing solution we design and implement consists of purpose built hardware and application specific software.

The main focus of the hardware is hygiene and convenience; it's easy to clean, easy to use with reliability guaranteed.
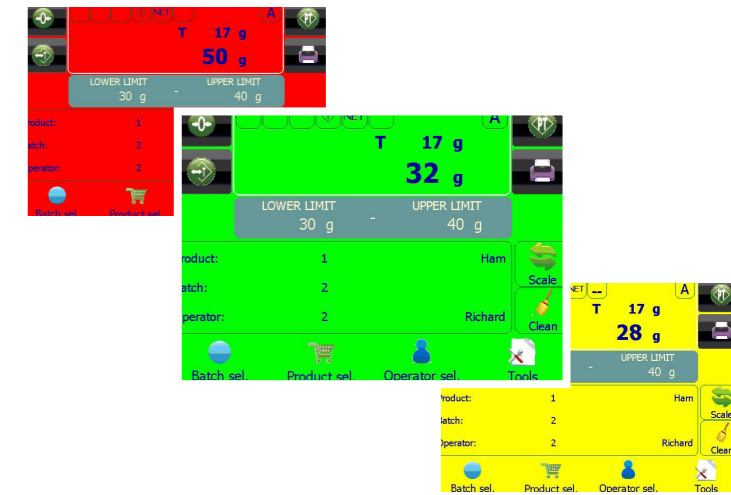

All our instrumentation is built to IP rating of 69K, meeting the most rigorous of hygiene and cleaning requirements.

For ease of use we offer a wide range of indicators to suit the job or budget, with the possibility of integrating them into the manufacturing process and high level systems.

The Software

Our user friendly software is designed guide the operator, maximising output and efficiency, providing the management team a high level of control and information.

- 5.7" Touch Screen Display
- Full Colour Graphics
- Intuitive Icons and menus
- User Friendly interface suiting application
- Full Traceability reporting capabilities
- CSV / Pdf data export

Check-Weighing

Our Check-Weighing and Takeaway software has been developed for fast and efficient portion control. Simple to use for management, supervisor and operator.
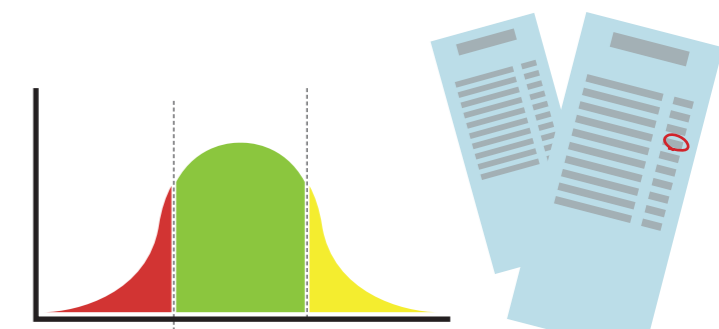

- Reduces give-away, fast RIO
- Full Colour Screen: Under/Target/Over
- Product/Batch reporting
- Data memory and recall

Average Weighing e

Our Average Weight software delivers fast and accurate results for Statistical Control.

- Compliant with Average Weight Legislation
- Graphical display of batch averages
- Full management report of statistics
- Complete visibility of statistical data

Recipe Weighing

Our Recipe Weighing software takes the element of doubt out of food manufacturing process.

- Easy to programme full recipes and process
- Screen driven prompts guiding operator
- Full Colour Screen for Under/Target/Over
- Management information capture and transferable for audit trail and improved efficiencies

How can we adapt our solutions to best fit your requirements?

Contact us for a demonstration of one, or all these solutions, and how Weightron Bilanciai can help with factory efficiency.

Full technical specification for all our solutions can be made available on request.
